Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 50 – 52 and 54 – 57, 60 – 63, 65 and 6 - 69 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 5,915,008 (Dulman).

With respect to claims 50 – 52, note Col. 8, line 46 – Col. 9, line 13.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 53 and 64 rejected under 35 U.S.C. 103(a) as being unpatentable over Dulman.

This limitation appears to be nothing more than redirecting the call to a conference bridge or plain old broadcasting. Both conferencing and broadcasting is old in the art and would be obvious to one of ordinary skill in the art to incorporate such limitations into the Dulman reference in order to make the system more flexible.

Claims 58 – 59 and 66 - 67 rejected under 35 U.S.C. 103(a) as being unpatentable over Dulman in view of U.S. Patent No. 6,072,864 (Shtivelman et al.).

To redirect to either a speed No. or trunk group is old in the art as shown by Shtivelman et al. (see Col. 7, lines 17 – 37). It would have been obvious to redirect the number vi or to any destination deemed appropriate.
